The court of appeals from California came and senior students throughout the district as well as AP US students got to see the court in action; hearing two different cases. There was time to ask the justices questions.
  - B. Principal (non-action item) Safety week is next week. Info is in the bulletin, Counselors have been out to middle schools with registration information. This will lead to master schedule planning. Big push this month is CAASPP test. Freshman will be doing the health curriculum that week, seniors and sophomores will have a late start during testing days. Our juniors will be taking the Science test as part of the state's pilot program. If anyone wants to have something included in
  - C. WASC (Western Association of Schools and Colleges - non-action item) The only updates we need to make are to the timeline. Everything currently lands in the 17.18 year and it needs to be more clear what will happen over the next six years. We will also be looking at creating Essential Learning Outcomes for each course.
  
4. Comments from Council members and public - concern about students leaving to other sites. A lot of these students are sophomores (Alling). Concerns about students cheating and other students getting pressured to share answers (Brott). Why are students allowed to have phone in class? Teachers shared that monitoring phone use during class is very time consuming. Discussed how to include this topic of being pressure to share answers, work, photos in the Digital Citizenship seminar.
