Katie: Communication is better on our campus but we need support from the district. We would like to see more support and communication from the DO down. Technology team communication to the staff has been challenging.... The Help Desk has not responded.

Kelly will put information regarding technology in the Staff Weekly

Katie: Maintenance communication with the DO and back is not clear and in return, the Maintenance team cannot help the department (Ag needs help with the repairs to the AG truck).

Maintenance has closed all the FMX requests. Repairs are needed and paper towel dispenser. Kelly will look into this.
